Shoddy mini-games masking shallow gameplay.. Probably the best asymmetrical Vive game on the market. This game is a lot of fun for two players. I've played it with various family members and friends and it's definitely a favourite.

It can get pretty tiring and stressful as the difficulty ramps up, but all in all a lot of fun!

Unfortunately I've not yet managed to play it with the same person twice, so haven't quite got through all 30 levels yet.

For the price tag, I'd say this is a must have if you own a Vive.. A very nice fantasy shopkeeper simulation somewhat similar to Recettear, overall it's a very enjoyable title, especially if you want something to unwind.. Video (gameplay + commentary):

[Played the whole game and found it pretty enjoyable!](#)

[Atmosphere and graphics are both great. Controls are responsive. Game length is bite-sized so definitely keep that in mind.](#)

[Exposure felt like the equivalent of a short film in that it's an interesting premise, but being told in a finite amount of time. It'd be neat to see a more extended and fully realized version of this game.. If I could describe this game in a single word, it would be "Wonderful!".](#)

[I absolutely love this game. The artwork is beautifully done by the lovely Kevin Barrios and is mind blowing. The gameplay is ridiculously fun \(albeit a bit difficult\) and the enemies are smart and well thought out. This makes for a great side-scrolling shooter experience and I highly recommend it. You should also go and play the original 2008 Dandy as well, to gain a little insight on how this gem came to fruition.. Need a battle map in 5 minutes for FG, or Roll20? With this program you can turn out maps before your cleric gets back from a pee break. Are the maps awesome? For the time spent, absolutely, however there's a quality ceiling that you hit pretty quickly here. Spending 2 hours on a map in this program isn't going to give you a result that is way better than spending 30 minutes.](#)

[If you only have a very short time to make a map, or want to cut your map prep time down significantly, this is the program you want.](#)

[Good stuff: Fast, cheap, surprisingly versatile, map quality is better than average](#)

[Complaints: Text tool is terrible \(if you want text you'll likely have to export your map and add the text in another program, GIMP or Photoshop\), could use more tile sets. It took me 30 minutes to beat the game. Punching is slow so you have to get the AI to beat the♥♥♥♥♥out of each other. The only thing I like in this game besides the stupidity is the graphics. They look amazing. Anyways, don't buy this game, even for \\$0.49 \(thats how much i spent, im probably gonna get a refund\)](#)

As a fan of Handball and a player myself, I followed the development of the game closely, and was happy when I bought it. I didn't expect much... but I was still disappointed. KI is basically not existing, neither on the own team (standing in perfect offensive Formation is nice....but not when your own goalkeeper has the ball and is looking for a player to throw it to), nor on the other.

And what bugs me the most is, that the most significant errors should be fixed pretty easy, e.g. the given example.

I was only able to stand it for some minutes, I don't think I even played it for an hour... it was just...sad. A virtual turkey. why not

. Cool game with nice puzzles and you also get to have some "creative freedom" in the way you solve the puzzles. It's point and click type game with a narrator set in a single room, this works very well with the current VR systems. Surprised I haven't seen more of these types of games for VR yet. Recommended!. On the heels of solving the mystery of the Ship of Spirits, the galleon runs aground and you end up thrown ashore on a mysterious island that just happens to be the same island the Spaniards stole from. And now you are going to have to return the artifacts before the spirit of the volcano unleashes its rage

HO scenes are fun, plot interesting, and the minigames are decent. Do suggest getting in the bundle as it is part of a continuous storyline and there are a couple threads still left hanging. Probably the best DLC out of the whole Season Pass.

Batgirl has a cool design, her abilities aren't too gimped compared to Batman, and the DLC area is relatively large. I just wish I could play as her in the main game. ;_; Lovely VN. Tis unfortunate we still waiting for 18+ patch but still a good read.. Lost girl's [diary] is a story driven game but??? Wait i put 11 hrs on this game??? Don't recomend this game not a good story.

Things to do in Lost girl's [diary]

- 1) Play the game
- 2) Refund the game
- 3) Cry

Rate of game 1 out 10. I absolutely love this!!! I was skeptical at first as these story games dont usually interest me. This one caught my attention. So I bought it to try it. I will admit it started off really slow and I was getting bored, but it picked up and got better. It does need more uncensored imagery with the story but the ones you do get are HOT! I hope they update this with more content and make it even hotter!
